Testimonials

"We held our Brand Experience Workshop for our client, Souder, Miller and Associates at Sunrise Springs. The environment and the facility was an ideal setting for creative ideation and thoughtful brand storytelling. The service and food were impeccable. We hope to host all of our branding sessions at Sunrise Springs in the future!"

"I can't say enough other than this experience will transform your relationship and life."

"A joyful experience that pushes the reset button! After four uplifting, delicious days I am forever changed."

"Being here fed my soul, my spirituality, and my health."

"The whole experience was sort of like a very luxurious summer camp for grown-ups."

"Sunrise Springs gave us an amazing opportunity to escape the everyday and relish in the calm and quiet of nature."

"Friday night was first class. All meals were excellent. The grounds, the room and bed; the décor; the artwork; the surprises (Mindfulness book and Stones); and every single staff member, was bar-none-kind, considerate, welcoming—a delight!"

"A Majestic stay in a beautiful setting. Some of the best meals we've ever had: fresh, hand-picked, and beautifully presented—everything was delicious! The Medicine Wheel was a favorite!"

"I just wanted to take a quick moment to thank you all for all the hard work you put into our retreat. The space was perfect, the food was incredible, and the entire staff were so kind and anticipated all our needs. We had a productive and relaxing work session there. We all agreed that we hoped to do it more often." – Andie Crosby, The Institute for Functional Medicine
